

**Mini Symposium with Prof. Steven P. Armes**  
Department of Macromolecular Science, The University of Osaka  
**-Program-**

**Morning Session**

10:30 – 12:00     **Special Lecture**    “**Polymerisation-Induced Self-Assembly**”  
Prof. Steven P. Armes    (The University of Sheffield)

12:00 – 13:30     **Lunch**

**Afternoon Session**

13:30 – 14:10     “**Amphiphilic Polymer Self-Assembly and Nanostructured Materials: New Stage by Random Copolymers**”  
Prof. Takaya Terashima    (The University of Osaka)

14:10 – 14:50     “**Functionalization of Supramolecular Complexes and Materials Based on Molecular Recognition**”  
Prof. Hiroyasu Yamaguchi    (The University of Osaka)

14:50 – 15:10     **Break**

15:10 – 15:50     “**Synthesis and Functions of Dense Triazole Polymers**”  
Prof. Akihito Hashizume    (The University of Osaka)

15:50 – 16:10     “**Acid-Labile Moiety-Containing Polyesters by Cationic Ring-Opening Copolymerization of Cyclic Esters and Cyclic Hemiacetal Esters**”  
Assoc. Prof. Arihiro Kanazawa    (The University of Osaka)

16:10 – 16:30     “**Exploring ABC Terpolymer PISA: Harnessing Molecular Frustration for Morphological Control**”  
Assoc. Prof. Rintaro Takahashi    (The University of Osaka)

16:30 – 17:10     “**Dynamic Polymer Networks with Enzymatic Degradation and Self-Healing Functions**”  
Prof. Yoshinori Takashima    (The University of Osaka)

18:00 –             **Banquet**
