Professor Yasuhiro Nakazawa
Director, Research Center for Structural Thermodynamics
Graduate School of Science, Osaka University
Toyonaka, Osaka 560-0043

Dear Professor Nakazawa

I want to thank you and your research group for making my stay in Osaka in the month of June this year very enjoyable and scientifically interesting. You were a perfect host – thank you for all your efforts!

Scientifically, I enjoyed interacting with you and the members of your group. I learned a lot especially from talking to your student, Shusaku Imajo, who very generously spent time explaining his calorimeter for doing measurements in field as a function of angle.

You certainly run a very active group and department scientifically – I benefitted from two conferences at the Toyonaka campus during my month's stay.

Teaching a class during my stay was a challenge – I hope the students benefitted from my efforts.

All in all, Osaka – the city – and Osaka – the university campus in Toyonaka – were extremely friendly to my wife and I. We had many pleasant experiences, and very much enjoyed our stay. The lady in the charge of the International House on campus was very helpful, and made us feel welcome. Again, thank you for the invitation and for your excellent hospitality.

Sincerely

A handwritten signature in dark ink that reads "G. R. Stewart". The signature is written in a cursive, slightly slanted style.

G. R. Stewart
