

Mini-Symposium at the University of Osaka
“Cutting-Edge Polymer and Supramolecular Science”

Nambu Yoichiro Hall, Toyonaka Campus
13:00-17:30, Tuesday, November 11, 2025

13:05 – 14:25 **Prof. Jun Li** (*National University of Singapore*)
“Supramolecular Self-Assembling Polymers and Hydrogels
for Nanomedicine and Sustainability Applications.”

14:25 – 15:45 **Prof. Matthieu Sollogoub** (*Sorbonne University*)
“Control of Cyclodextrin Self-Assembly”

16:05 – 17:25 **Prof. Xiao Hu** (*Nanyang Technological University*)
“Design of Network Polymers:
From High Temperature Rating to 3D Printing
and Waste Polymer Derived Vitrimers”

*Project for Sustainable Polymer Science
Cross-Disciplinary Project Research Division, Forefront Research Center (FRC)
Graduate School of Science, The University of Osaka*
